REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Based the terminal disclaimer the application is allowable, the prior art fails to disclose a system or method for determining occupancy state of a seat in a vehicle in combination with the vehicle, wherein the system comprises a processor means coupled to transducers for receiving the data from the transducers and processing the data to obtain an output indicative of the current occupancy state of the seat, the processor means comprising a trained pattern recognition algorithm created from a plurality of data sets, each of the data sets representing a different occupancy state of the seat and being formed from data from the transducers while the seat is in that occupancy state; and combination neural network producing the output indicative of the current occupancy state of the seat upon inputting a data set representing the current occupancy state of the seat and being formed from data from at least some of the transducers. These limitations are neither taught nor obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
